NCAA SelStudy: The NCAAequires that member institutions conduct a setfudy of their athletic programs every five years. The selfudy consists of a long series of questions for the institution to consider, in consultation with various offices (e.g., admissions, financial aid academic advisinghealth services, etcv) ith connections to athletics. This ar Skidmore completed its selfstudy under the aegis of a broadly representative steering committee chaired by Megan Buchanan and including representatives of the Athletic Council. At its last meeting of the year, the Athletic Council endorsed the setlidy and forwarded it to President Glotzbach for his signature. Interestingly, the NCAA doesn't actually look at the trackly; it only requires presidential certification that it was rigorously and honestly completed. As one might expect, this year's study highlighted both hings we can be proud of and areas in which we need to improve. Those interested can request to see the reportification the Office of the Athletic Director.

Physical Activity (PA) class grading iss**Ge**rey Freema•Galant recommended that PA courses be changed from lettegraded to "all S/U" as one means of moderating collegewide trend of grade inflation (High grades predominate in one edit courses PA courses A's" currently constitute 93% of all grades The commitee considered this recommendation in parallel with consideration by the PA instructor so of this writing, no final decision has been made. This issue is connected to the possible awarding of academic credit for varsity athletics participation (see the next item); such credit would almost certainly be on an "S/U only" basis, making it likely that a consistent policy would be adopted for PA classes.

Academic Credit for Intercollegiate Athletic Participation he student members of the committee had raised this issue during the academic year 2054 and the committee had givenit preliminary considera-4.9 (rF3 (ar 2-7.741202 Tc -00 Td ()Tj /)-6.9b(p)2.2)-3.2 (s)-4.3Tc 0 ene2
